CAREER OBJECTIVE

I am a final-year B.Tech student in Computer Science at DBATU University, with a keen interest in software development, cloud computing and DevOps. I have worked on academic and personal projects using technologies like Python, Java, and SQL, and I'm eager to bring my skills to real-world software development teams through internships or entry-level positions.

EDUCATION

Diploma in Computer Engineering, MSBTE	2023
B.Tech in Computer Science and Engineering, DBATU	2026

SKILLS

- C
 - Java
 - Python
 - HTML/CSS/Javascript
 - SQL
 - Cloud Computing
-

PROJECTS

Packet Food Rating System

Developed a system that rates packet food products based on multiple parameters such as nutritional value, user reviews, brand credibility, and packaging details. The system aims to assist consumers in making healthier and more informed food choices.

Extract Text From Image

Built a system that automatically extracts and converts text from image files into editable digital format using Optical Character Recognition (OCR) techniques.

CERTIFICATES

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
 - Oracle Cloud Infrastructure Generative AI Professional
 - CCNA: Introduction to Networks
-
